The Viking people in ancient times came from where we now call Denmark, Norway and Sweden, and invaded and influenced much of Northern Europe. They travelled further than any Europeans before and settled even the barren wasteland of Greenland and discovered America 500 years before Columbus.

While the Vikings are just a memory their legacy lives on and you can now taste their delicious cuisine in the cosy surroundings of the Stable Lodge restaurant while enjoying a glass or two of fine wine, beer, or Aquavit and eat the hearty fare that gave the Norse raiders the strength and vitality to conquer Europe so long ago!

Founded by three Danes in 1991, Stable Lodge is the original Scandinavian garden restaurant and hotel in the heart of Bangkok, tha toffers Danish, Swedish and Norwegian dishes. We serve Thai and International fare and have built an excellent reputation for our food, service and ambiance
